

**Merrill Lynch**  
 Career Opportunities

**Interviewing in the Durham area on November 30 & December 1.**

**Resumes will be accepted through October 31st**

**On the Merrill Lynch Fast Track**

For decades Merrill Lynch has been the leading U.S. brokerage firm. One in five affluent American investors name Merrill Lynch as their brokerage firm. Total assets under management now exceed \$500 billion globally.

We at Merrill Lynch have built our leadership position through a client-driven marketing strategy. We stay abreast of changes in world demographics and investor needs, then respond with new products and services well before the rest of the marketplace.

Now Merrill Lynch invites a small group of outstanding 1996 college and MBA graduates to share in that success by pursuing a unique career opportunity in its Private Client organization.

**The Private Client Development Program**

offers challenging opportunities in one of the Merrill Lynch Private Client business units (units key to maintaining our competitive edge — where your contribution to our success is significant).

Under the guidance of a senior manager, you work in product development, marketing or finance areas. You meet with senior management to discuss firm strategy and participate in task force projects to aid various business units in meeting their strategic objectives. Formal classes address career development issues and enhance your leadership skills. You are given responsibility, accountability, and the experience needed to help you succeed throughout your Merrill Lynch career.

Candidates for the program have outstanding records of academic, extracurricular and work experience achievement. They are interested in the challenge of the fast-paced financial services industry and want to be recognized for their accomplishments.

The Merrill Lynch Private Client group is offering an unequalled opportunity to excel. If you have the talent, creativity, energy and commitment to be a winner, this is an opportunity that can make a difference in your career.

**The difference is Merrill Lynch.**

*absolutely no admission without ticket*

**I Have Money and I Feel Good!**

Life! I never thought I would be counting nickels and pennies — *have* to be counting them! My bills outpace my income, and I make pretty good money. And I never have time for community service projects — things to help other people.

Now I have the best of both worlds. Everything is a lot better. I get some additional money for doing a good deed — about \$1,500 a year! Cash, on the spot. Nothing taken out. All mine. And I am helping to save lives at the same time. What a deal!

Think of what you could do with \$140 extra a month. If there were two of me ... as in husband and wife ... girlfriend & boyfriend, we would have \$280 ... car payment? vacation? some new clothes?

Like I said, it's a good deal for a good deed. I donate plasma, the water portion of my blood. It takes about an hour and a half each time, and they compensate me for my time and commitment. Since you spend a lot more time, and donate more often than giving blood, they reward me with added compensation. Besides it's not as draining as giving blood, and you don't feel tired after giving. It has such little effect on your body, the U.S. Food & Drug Administration allows donations as often as twice a week.

I go to Sera-Tec to donate, they are located in Medical Park Office Complex (near Hanes Mall). It's a nice place, bright and professional, nothing like you would imagine. You sit and talk or read (the students study) during the procedure. The staff is very nice, friendly, and no one is a stranger for more than five minutes. If you look around you, you will see your neighbors and friends donating.

The whole procedure is automated, done by a machine pulled up beside your lounging chair. The machine is very "high tech" with funny little beeps. Your blood never leaves the disposable tubing, and by magic (maybe a little science) it separates your plasma from your blood. All with a single needle. While you are reclining there you can read, or talk to your friends, or meet some new ones. Who knows who you will meet there. They have doctors, teachers, and people just like me donating!

On your first visit, a doctor will give you a complete physical — free! The donor center looks for people in the best of health. They monitor your health on a regular basis. I never felt so good.

I can't tell you everything technical about plasma, but I do know it is vital in a number of areas. They have people with Rh negative blood donating to help make a drug for newborn babies, and from health care workers' blood they make a drug to protect against hepatitis. I was told my plasma goes to help people with hemophilia, they need about 50 gallons of plasma a year just to live. Plasma is the base for a variety of medical tests and treatments. In this world tens of thousands depend on the stuff if they are going to have a tomorrow.

You get the picture. Plasma only comes from humans, so only humans can save another human.

I am happy, I feel good, and I have extra spending money. If you want to feel good too, call them. Tell them Tom sent you.
