Look Out World! I Have Money and I Feel Good!

Life! I never thought I would be counting nickels and pennies — *have* to be counting them! My bills outpace my income, and I make pretty good money. And I never have time for community service projects — things to help other people.

Now I have the best of both worlds. Everything is a lot better. I get some additional money for doing a good deed — about \$1,500 a year! Cash, on the spot. Nothing taken out. All mine. And I am helping to save lives at the same time. What a deal!

Think of what you could do with \$140 extra a month. If there were two of me ... as in husband and wife ... girlfriend & boyfriend, we would have \$280 ... car payment? vacation? some new clothes?

Like I said, it's a good deal for a good deed. I donate plasma, the water portion of my blood. It takes about an hour and a half each time, and they compensate me for my time and commitment. Since you spend a lot more time, and donate more often than giving blood, they reward me with added compensation. Besides it's not as draining as giving blood, and you don't feel tired after giving. It has such little effect on your body, the U.S. Food & Drug Administration allows donations as often as twice a week.

I go to Sera-Tec to donate, they are located in Medical Park Office Complex (near Hanes Mall). It's a nice place, bright and professional, nothing like you would imagine. You sit and talk or read (the students study) during the procedure. The staff is very nice, friendly, and no one is a stranger for more than five minutes. If you look around you, you will see your neighbors and friends donating.

The whole procedure is automated, done by a machine pulled up beside your lounging chair. The machine is very "high tech" with funny little beeps.

Your blood never leaves the disposable tubing, and by magic (maybe a little science) it separates your plasma from your blood. All with a single needle. While you are reclining there you can read, or talk to your friends, or meet some new ones. Who knows who you will meet there. They have doctors, teachers, and people just like me donating!

On your first visit, a doctor will give you a complete physical — free! The donor center looks for people in the best of health. They monitor your health on a regular basis. I never felt so good.

I can't tell you everything technical about plasma, but I do know it is vital in a number of areas. They have people with Rh negative blood donating to help make a drug for newborn babies, and from health care workers' blood they make a drug to protect against hepatitis. I was told my plasma goes to help people with hemophilia, they need about 50 gallons of plasma a year just to live. Plasma is the base for a variety of medical tests and treatments. In this world tens of thousands depend on the stuff if they are going to have a tomorrow.

You get the picture. Plasma only comes from humans, so only humans can save another human.

I am happy, I feel good, and I have extra spending money. If you want to feel good too, call them. Tell them Tom sent you.
