I understand that sometimes we make mistakes. At the same time though, I believe the Honor Code needs to be upheld so that hardworking students are not put at a disadvantage. Name: Derek Gilliam
Class: Junior
Phone: Ext. 6569
Campus Address: 18 Efird Hall
P.O. Box: 8723

Experience: I have served on Student Government Legislature for two years and the Executive Board of RSA last year. While on SG, I served on the Physical Planning Committee, and the Judiciary Committee. My knowledge of the judicial system comes from serving on this committee. During that year we evaluated the constitutions of several organizations on campus and attempted to come up with a concise, uniform statement that summed up the honor code for every student to know. This experience has given me knowledge of our campus judicial system and makes me a desirable candidate for HEC.

Campaign Statement: I feel that we live in a college community in which the students and the administration work together to write and to enforce the honor code. I believe that the entire conception of the honor code was established to be a partnership between the students and with the administration. I would like to serve on this council because I feel like students have a responsibility to make sure the honor code is internalized, because the truth is everyone does not take it seriously. That is why I admire the role that students play on campus in administering and adjudicating violations of the honor code. I have been told that I have a wonderful capacity for deliberation and come to good conclusions. I feel that my calm personality and strong sense of fairness will be a benefit to the other members of HEC as well as students who come before the board.

In high school, I was thoroughly involved with student government, having served as President of the sophomore, junior, and senior classes. This is my first time seeking a position at Wake Forest.

Campaign Statement: In order to achieve fair deliberation, the HEC needs to share a diverse point of view. My fresh perspective and temperance will contribute to the justice that has been promised to the students of Wake Forest. I feel that I have the responsibility to maintain the high standards of this university and know that the addition of my perspective and understanding will help in contributing to the overall interests of this student body.

Experience: Serving on HEC senior yr of high school, Serving on Wake's HEC this year

Campaign Statement: My experience on the HEC this year has given me an appreciation of working with peers who are facing an honor code violation and to help them understand and grow from their mistakes, rather than simply suffer punishment, while at the same time working to maintain the honorability of our university and students. Experience: Being a member of HEC my freshman year enabled me to get to know student and faculty members. I now feel very comfortable working with such a group. I have also become familiar with the system and the trial format. I know what an honor it is to be part of the council. Although making decisions in trials can be tough, I have learned to do so without letting my personal feelings or any other previous knowledge about the student get in the way.

Campaign Statement: As a member of orchestra, SG, Tri Delta, and the OGB staff, I have been able to interact with many different students. This will help me to be fair in my decisions since I have a good idea of where students are coming from. I feel I represent each of these groups well and hope to represent the HEC in the same manner. Also, I feel I am trustworthy, honest, and a good decision-maker.

Plus, I have taken extra-curricular courses in peer mediation, leadership, race relations, and conflict resolution. I am excited about the opportunity to serve you again next year, and promise to help maintain fairness and respect.

Campaign Statement: First and foremost, I have chosen to run for the HEC again because I love and respect what it means to live under an honor code. I believe that everyone at Wake Forest wants to be honorable, and that everyone has the right to be trusted. Honor codes were not established to create fear within those living under it, but rather a sense of pride and mutual respect. If elected, I will continue my efforts to help everyone better understand the honor code and in turn enable us to all have a better experience here at WFU.
