

**CAMPAIGN STATEMENT:**

In being a Peer Helper/Mediator for the past two years at my former high school, I have learned that most conflicts develop through a lack of communication. If elected to SG, it is my goal to hear every side of every opinion and help make the campus as close to a second home as possible for each student. My goal is to create a better student life through the advice of the most important people on campus: the students.

**Experience:**

In high school, I was involved with service organizations through our school that focused on providing student tutors for local children in the community. As leader of this organization, I showed people how they could help tutor, and what options/benefits the school provides them with if they do a certain service.

**Campaign Statement:**

College life is all about your experiences. Our ice-cream social was in the dark- if I'm elected, I will improve the organization of our socials. If we need to go off-campus, I will try my best to make Winston-Salem more accessible to us in terms of information on what, service organizations, entertainment, internships, and student-discount services are available to us and how we can make our college experience at Wake one we will never forget.

Experience: I was a member of the student council of my former high school from ninth to eleventh grade. I was also a member of the student government association my junior and senior years. This organization, much like the student government of WFU, was student led. We were involved with many functions throughout the school. We were also representatives for the student body.

Campaign Statement: I've chosen to run for office because I want to be involved in the decision making process here at WFU. By being a part of this organization, I am reassured that the opinion and vote of my fellow classmates and myself are taken seriously. I want to begin my college career being informed about the things of WFU and taking part in making them better. These qualifications make me the perfect candidate for this position.

Campaign Statement - In the past, only a handful of students living off-campus have run for a position in the legislature despite the fact there are often a dozen openings. As a result, the open positions are often awarded to younger members of the community who may be unfamiliar with the problems facing off-campus students. If elected, I will work hard to ensure that the voices of off campus-students are heard and that they get their due representation.
